

# Elizabeth MIDDLE SCHOOL

At **Elizabeth Middle School**, we're committed to providing an inspiring, encouraging and challenging learning environment where students flourish and continue on to high school prepared and equipped to excel.

Students are supported by teachers and staff who really care about them and work hard to make sure they have a great education. We empower independent learning and offer accelerated reading, writing, math and science classes while also providing additional support to students as needed.

Our 6th graders receive support through the Where Everybody Belongs (WEB) program. Through the program, 8th graders help and mentor our incoming students.

Students at Elizabeth Middle School can explore their interests through band, orchestra, choir, drama, physical education, STEAM (Science Technology Engineering, Art & Math) and technology electives. We also offer many clubs and athletic options.

We provide the tools for students to develop their leadership and citizenship skills through programs such as WEB, National Junior Honor Society, Student Council and the Student Advisory Committee.

We invite you to visit **Elizabeth Middle School** to experience our caring learning environment where teachers are empowered to engage students in their learning and help them discover and explore extracurricular activities that prepare them for success well beyond middle school.
