

Butterfly Class- March News

The first two weeks of March we will be studying the theme of dinosaurs. We will learn lots of fun facts about Triceratops, T-Rexs, Stegosaurus, Brachiosaurus and more. We will learn about when they lived, what they ate and what their sizes were. We will also learn about fossil, bones and what paleontologist do. Spring break will be from March 17th- 24th. When we return from break we will begin a Spring unit that will continue through the month of April. I hope you all have been enjoying the warmer weather. While more snow is in our future spring is on the horizon!

Classroom Curriculum

Week 1 – What do we know about dinosaurs? What do we want to find out?

Week 2 – How do we know so much about dinosaurs?

Week 3 – **Spring Break**

Week 4 – What happens in Spring?
