Classroom Information

The theme for the first two weeks of May is Ocean and the last two weeks of school is Camping. I can't believe it's the last month of school already. Its been an amazing year watching all of our students grow. We're going to have fun while learning about Ocean with hands on activities and creative projects. For the last weeks of school we will learn about Camping and the great out doors this is a great way to get the kids outside and explore with nature and use our imagination.

Classroom Curriculum
