

meet Ms. Tina

welcome

Hello! I am very excited to be working with a wonderful team committed to helping ESD's youngest students grow. I sincerely believe that the early learning years are the most important and set the stage for school and life success. I encourage you to please stop me on site or contact me by email at tbrisnehan@esdk12.org. I am here to support you the best way I can.

a little about me

I have been working with young children since 2014 in various roles including teacher assistant, assistant director, curriculum designer and program coordinator. I have a Bachelors in Communication from Arizona State University and a Masters in Early Childhood from Northern Arizona University.

I grew up in Arizona and lived in California and Florida before landing in Colorado. I love this state and enjoy all the beauty here with my husband, David, my kids - Lauren (17) and Ryan (15) - and two Brussels Griffons - Archie (11) and Murphy (1).
