

Per C.R.S. § 22-32-108.5, for the 2019-2020 budget year and each budget year thereafter, the District must either implement a plan for using and distributing the additional mill levy revenue that the District collects for each budget year, or distribute to each charter school of the District an amount equal to at least ninety-five percent (95%) of the District's per pupil mill levy share for the applicable budget year multiplied by the number of students enrolled in the charter school for the applicable budget year.

The district will distribute an amount equal to at least ninety-five percent of the District's per pupil mill levy override share for the applicable budget year multiplied by the number of students enrolled in the charter school for the applicable budget year. For this calculation kindergarten and home school pupils will count as a 0.50 student.
