Motion Moved by Director Benkendorf
Motion Seconded by Director Smith

ROLL CALL:
Director Paul Benkendorf – aye
Director Dee Lindsey – aye
Director Richard Smith – aye

The motion carried 3-0
7.0 PUBLIC PARTICIPATION
No public participation

8.0 COMMUNICATIONS

8.1 EHS-Washington DC Trip

8.2 HR Update
HR Director Kim Shuman said the turnover has been very stable this year. The district is at 20% turnover, which is low for Elizabeth Schools and about state average. There are 14 teaching positions the district had to fill and there are just 6 more left to fill. Elizabeth High School lost two counselors and one has been replaced so far. The assistant principal/athletic director has been replaced at EHS. SPED director Kim Morrison has already replaced all of the SPED positions.

A new revised/updated employee handbook is now available on the district website and will be given to new employees. The handbook contains really good information about employees’ employment at the district.

8.3 Technology Update
Technology Director Marty Silva provided information regarding the disposition of assets for technology. Every year, the technology team tries to take obsolete technology from sites and then surplus the items. Silva’s team tries to get a company to take the items for free or sometimes they’ll give the district a little money. It’s hard to get rid of old items, especially anything with screens. In past, the district has tried to sell outdated technology to the public in an auction format; however, the return isn’t worth the time and effort.

Silva gave an update on grants that have been secured for computer science education. In the recent tech survey, teachers were asked if they were interested in computer science training and 82 said they’re interested in additional training.

The district is transitioning to a new mass notification system with Blackboard Mass Notifications. The current contract runs out July 1 and the district should be up and ready to go with Blackboard by July 1. Training for the new platform will take place within the next couple of weeks. The Blackboard system has additional functionality and features and it costs less than the current vendor.

***Director Karcher joined the meeting at 6:18 p.m.***

8.4 Financial Update
Chief Financial Director Ron Patera reviewed checks over $5,000, of which include payments for contractual services for special needs students, final payment for the roof and EHS, payments for the master plan, AP exams and a football camp.

The end of April is 83.33% through the fiscal year. The district has collected 72.26% of its budgeted general fund revenues and has expended 78.62% of the budgeted general fund’s expenditures. There are a couple cost centers over the benchmark, but nothing is a cause for concern. As for the balance of funds, the self-insurance fund has experienced very high claims this year and could experience at least at $100K spend down once Anthem reconciles all of the claims with Individual stop-loss payments.

The Singing Hills Elementary wastewater treatment system is expected to be operational/functional at the end of July. The district should be able to get the system ready by the time students arrive back in August. The septic system contractor is behind on billing so that’s not been reflected yet and will most likely be reflected next fiscal year.

Five proposals were reviewed for the lease-purchase financing for new buses. To be compliant with TABOR laws, the company that finances the buses has to take beneficial title of the buses and the district makes lease payments to
them. The district insures the buses and maintains them.

A capital item has been added to the 2018-19 budget to cover a carpeting replacement in four schools. The carpet needs to be replaced for cosmetic and safety purposes. The anticipated budget assumptions have gone up to $2.9M due to collecting about $200K more in specific ownership taxes than what CDE anticipated. This will equal out next fiscal year when the CDE collects the specific ownership taxes the district received in excess of the CDE's assumption.

The budget also looks inflated due to savings because we haven't been fully staffed with custodians. Para professionals were also budgeted for but positions weren't filled or were filled late in the year, which resulted in a savings of $200K for not having all positions filled. Part of the reason they weren't filled is that the salary was too low and the salaries have been adjusted up which will also impact the 2018-19 budget.

8.5 Communications Update
Communications Director Melissa Hoelting gave an update on the Elizabeth High School and Frontier High School graduating classes, the district luncheon and pinning ceremony on August 14 and gave a reminder about the first day of school for the 2018-2019 school year.

8.6 Superintendent Update
Superintendent Douglas Bissonette shared that HR Director Kin Shuman will take over the mentor induction program with support from Regina Montera and Laurie Schlekewiy, especially at the high school. The Colorado Department of Education has required us to provide different assurances than what we have previously given them. The end result will be new hires will get more support from the district their first year.

A modest change is being made to how the district supports Kids Club and preschool. For the next school year, a move will be made from a district-level program to a school-level program. The programs will operate at Running Creek Elementary and Singing Hills Elementary, not at Frontier High School. In order to do that, the district will have Kids Club and Preschool campus coordinators. Preschool and childcare certification is required for coordinators at each location. Before and after care and options during breaks and over the summer will be driven by the needs at each particular school.

9.0 CONSENT AGENDA
A motion was made to approve the consent agenda 9.1 – 9.10.
Motion Moved by Director Smith
Motion Seconded by Director Karcher

ROLL CALL:
Director Paul Benkendorf – aye
Director Cary Karcher – aye
