# 76<sup>th</sup> Annual Delegate Assembly

Saturday, October 15, 2016 8:30 a.m. – Noon

Fort Collins Marriott Fort Collins, CO

Colorado Association of School Boards www.casb.org

Dear CASB Member,

You will notice significant changes to the Resolution Book for this year's Delegate Assembly.

It is leaner, more compact and designed to be easier for members to use. Over the years, this book had grown dense and cumbersome. Last year's edition, for example, was 38 pages, seven chapters and a welter of standing resolutions, proposed resolutions and deleted resolutions.

In 2015, a delegate proposed a pruning, and earlier this year, CASB's Board of Directors approved a plan to produce a "useful document for membership and staff and to encourage a more active and engaged Delegate Assembly process."

A committee of CASB Board members and Chief Counsel Kathleen Sullivan got to work, and this book is the result of their labors. I think you will agree that this book makes it easier to see what is most important to CASB and its members – the standing resolutions – and what issues members believe are worth considering for CASB's 2017 advocacy agenda.

This has been a significant undertaking, and we are happy to present this refreshed product to you today. If you have any feedback about the revised book, please let a CASB Board member or staff member know. Thank you for your active participation in the 2016 Delegate Assembly and your commitment to serving students through your local board work.

Sincerely,

YulieMarie A. Shepherd Macklin, Ph.D.

Jubyan A. Mepherd Marchlin

**CASB** President

Note: CASB will send one hard copy of this booklet to each school board via the superintendent secretary. A PDF is available for download on CASB's website at www.casb.org.

# **About CASB's Delegate Assembly**

The Delegate Assembly is the foundation of CASB's governance structure and provides critical direction as CASB represents members' interests before state and national policy-makers. Working with CASB's advocacy staff and the Legislative Resolutions Committee, designated delegates from local boards help ensure that CASB reflects the interests of boards of education across the state.

The Delegate Assembly is made up of up to 178 delegates who are appointed/designated by their local school boards in 12 geographic regions throughout Colorado (see pages 11-12). Each board casts one vote, so your board's representation at the Delegate Assembly is of the utmost importance to both your district and to CASB.

The Delegate Assembly charts CASB's future in three significant ways:

- Elects CASB's board of directors
- Amends CASB's bylaws to ensure a responsive and effective association
- Adopts CASB's advocacy agenda, the legislative "road map" for issues critical to public education for the foreseeable future

# What Does it Mean to be a Delegate?

Roles & Responsibilities

- Attend two annual Delegate Assembly meetings (held during the fall conference and annual convention)
- Help formulate CASB's legislative priorities and activities and adopt resolutions to guide the advocacy agenda
- Elect CASB's Board of Directors
- Amend CASB's bylaws

# **Proposed Rules of Procedure for CASB Delegate Assembly**

The rules are adopted at the onset of the deliberations of the Delegate Assembly, at which time they are subject to discussion and amendment.

The following rules of procedure are proposed for adoption by the Delegate Assembly:

- 1. Except as modified below, the assembly shall operate by the rules prescribed in "Robert's Rules of Order, Newly Revised."
- 2. Amendments to resolutions shall be in writing and presented to the CASB president or designee prior to discussion of the amendment in the Delegate Assembly. (See form on opposite page.)
- 3. In speaking to a motion, a delegate will be limited to three minutes. A delegate shall identify herself/himself before speaking on an issue.
- 4. A delegate who has spoken once on a question will not be recognized again for the same question until others who wish to speak have spoken. At that time, the delegate will be allowed two minutes for rebuttal.
- 5. All voting shall be through the electronic voting system or by a show of hands. Actions shall be taken by majority vote of the member boards with a representative present and voting.
- 6. Any resolution not published and distributed to members in this booklet shall be considered a resolution from the floor. To present a resolution from the floor, a delegate shall submit the proposed resolution in writing to the president or designee prior to consideration. When recognized, the delegate shall make a motion that the resolution be considered. If the motion is seconded, the delegate offering the floor resolution shall be allowed three minutes to speak to the motion. The motion to consider a resolution from the floor requires an affirmative vote of two-thirds of the boards represented and voting. If the motion to consider passes, the floor resolution will then be considered on its merits in the same manner as any other resolution.

Copy this page for proposed amendments. Additional forms will be available at Delegate Assembly.

# **Standing Resolutions**

#### **Local Governance**

Colorado's Constitution acknowledges the diverse nature of Colorado school districts and establishes locally elected school boards vested with control of instruction as the guarantor of educational quality responsive to local needs.

Control of instruction, including efforts to restructure and fund public education, must be guided by student needs, improved academic achievement and responsible use of financial resources as determined by the locally elected school board.

Essential functions of the local board of education's constitutional authority include establishing the course of curriculum and instruction, the process for determining the terms and conditions of employment for school district employees, and the budget to be used to implement the local community's priorities.

#### **Finance**

The state must provide Colorado's public schools with adequate and reliable funding pursuant to a formula that balances federal, state and local revenue sources and is intended to fully fund the legal requirements for and meet the educational needs of all Colorado students.

New legislation must expressly consider cost at the state and local levels and be fully funded before it may be enforced by the state.

Existing mandates that are ineffective or that have a larger cost than benefit must be rescinded so local boards may dedicate those financial resources to better use.

## Student Achievement

CASB supports a system of accountability that stresses local measures that inform instruction and separately acknowledges a need for a statewide system that allows measurement of school and district effectiveness and comparison between school districts.

CASB opposes any state mandates beyond the federal minimums with respect to assessment and educator licensure to assure local boards' flexibility to allocate instructional time and place the best teacher in every classroom.

Colorado school boards' constitutional authority includes the right to develop schools and programs to supplement current programs and ensure student access to diverse learning opportunities.

# 2017 Legislative Session Resolutions

1)	
1)	CASB must advocate to address the constraints in the Colorado Constitution, to allow the state to retain the revenue it collects and to afford the General Assembly greater flexibility in setting the
	state budget.
cons TABO Fund the '	onale: Despite an improvement in Colorado's economy, the state budget is still facing shortfalls due to the traints of TABOR, Gallagher and Amendment 23 in the state constitution. Colorado's Constitution forces OR-mandated rebates to be rendered at the expense of critical state and local programs receiving General support, including K-12 education. Budget cuts, including those accomplished through the mechanism of 'negative factor," significantly threaten the ability of K-12 educators to provide every Colorado child with a bugh and uniform education.
	Submitted by Poudre School District's Board of Education Forwarded with recommendation by the Legislative Resolutions Committee
2)	CASB supports the modification of state law regarding annual teacher evaluations to allow local
	school districts to set the impact of student test scores anywhere from zero to 50 percent.
evalı	onale: The current state law requirement that student test scores count as 50 percent of annual teacher uations reduces local control over educator evaluations. In the past, state law has permitted local school ds to set the percentage based on changing conditions, including the introduction of new test instruments.
	Submitted by Poudre School District's Board of Education Forwarded with recommendation by the Legislative Resolutions Committee

3)	CASB supports allowing local boards of education to meet in executive session with school
	district staff for the purpose of determining positions with respect to employee negotiations.
Rationale: The intent of Proposition 104 was to require employee negotiations to be held in public permitting school boards to meet privately to develop their negotiating positions and strategies (a groups may do) was not the intent, but merely a side effect of the way the proposition was written the law to allow school boards to meet in executive session with school district staff for the purpodetermining bargaining positions equalizes negotiations by allowing school boards and school distance opportunities as employee groups.	
	Submitted by Poudre School District's Board of Education Forwarded with recommendation by the Legislative Resolutions Committee
4)	CASB supports the authority of local boards of education to hold accountable multidistrict online
	charter schools operating within their boundaries and to make decisions, including continued
	operation or closure, based on achievement standards that align with state law and the needs of the local community.
sch sch the Rel	tionale: Local school boards are in the best position to evaluate the costs and benefits of multidistrict online ools operating within their communities, as they do with traditional schools and district-authorized charter ools. Those decisions, including operation or closure based on performance, are entitled to deference from State Board of Education pursuant to the Colorado Constitution's provision for local control of instruction. ationships between multidistrict schools, local boards of education and communities will benefit if issues are the double out locally without undue intervention from the state.
	Submitted by Aurora Public Schools' Board of Education

5)	CASB supports locally elected school boards' constitutional right to operate school districts free of most state regulatory control if the school district meets standards for student achievement and fiscal solvency.
Dire	ionale: Recommendation to address CASB Board of Directors Annual Goal #4 from the 2016-2017 Board of ectors Strategic Plan, which states: "CASB will actively pursue the restoration of Colorado's constitutional ance of authority and responsibility between state officials and locally elected school boards."
	Submitted by the Legislative Resolutions Committee
6)	CASB urges the adoption of a new school finance act that eliminates the opportunity gap for students in low-wealth districts and addresses the lack of equity in our current system.
the FY at-r our ined in p Acc	ionale: Colorado's current K-12 funding formula was established in 1994. Under current law, funding for cost-of-living factor is more than three times higher than the funding provided for at-risk students. In '15-16 total program funding statewide provided \$1.0 billion for cost of living and only \$331 million for risk. By definition, the cost-of-living factor is higher in districts where property is more expensive. Thus, current formula places the highest funding priority on districts with the highest local wealth, creating quity between wealthy and poor districts. Further, extensive research supports the argument that children roverty need more resources, not fewer, in order to match academic performance with their wealthier peers. Fording to the Center on Budget and Policy Priorities, "Researchers in different states have reached similar clusions: In order to reduce significantly the academic achievement gap, school districts need funding for students equal to two or two-and-a-half times the cost of educating non-poor students." The current school and the formula disproportionately disadvantages students in high-poverty districts and perpetuates inequities.
fina	

7)	CASB supports repeal of the law stripping school districts of governmental immunity.	
sho sch	Rationale: Removing governmental immunity from school districts and holding them responsible for any school shooting or act of violence does nothing to assist school districts in assuring the safety of their students and school communities. The current legislation, while well-intended, creates ambiguous standards and will only drive up insurance and legal costs.	
	Submitted by Poudre School District's Board of Education Forwarded with recommendation by the Legislative Resolutions Committee	
8)	CASB supports moving the Hospital Provider Fee from the General Fund into an enterprise fund.	
dire	tionale: The Hospital Provider Fee does not belong in the General Fund because these dollars are fees ected for a specific purpose. Moving this fee to an enterprise fund would help free up the general funds for a cation and other uses.	
	Submitted by Poudre School District's Board of Education Forwarded with recommendation by the Legislative Resolutions Committee	

9)	CASB supports alternative methods of funding, including but not limited to allowing impact fees,
	for the construction and maintenance of school buildings and school district facilities.
and faci	onale: No mechanism currently exists to allow for an ongoing source of funding for building new schools school district facilities or for meeting maintenance needs to keep existing school buildings and district lities in good repair. A long-term, sustainable solution to funding the construction and ongoing maintenance ds of school buildings and district facilities is badly needed.
	Submitted by Poudre School District's Board of Education Forwarded with recommendation by the Legislative Resolutions Committee
10)	CASB supports legislation to address case-law decisions that have held school districts liable
	for payment of contracts that employees have not fulfilled and to reinstate the authority of local
	boards to establish the terms of employment.
pose instr fore clos distr stud dam	conale: The current law, which allows teachers to resign up to 30 days before the start of the academic year, es a hardship for school districts. The pool of teaching candidates in smaller districts for "hard-to-recruit" ructional areas such as English as a second language, upper-level secondary mathematics and science, ign languages, special education and so forth is significantly limited in comparison to larger districts. The er to the opening of the school year that late resignations are statutorily allowed, the more likely smaller ricts will need to reduce or eliminate academic programs for students or rehire ineffective educators so lents can meet college entrance course requirements. The statute should permit including a liquidated-tages provision of a specified amount (e.g., \$1,500) that a teacher must pay if he or she terminates the tract without sufficient notice to the district.
	Submitted by the Legislative Resolutions Committee

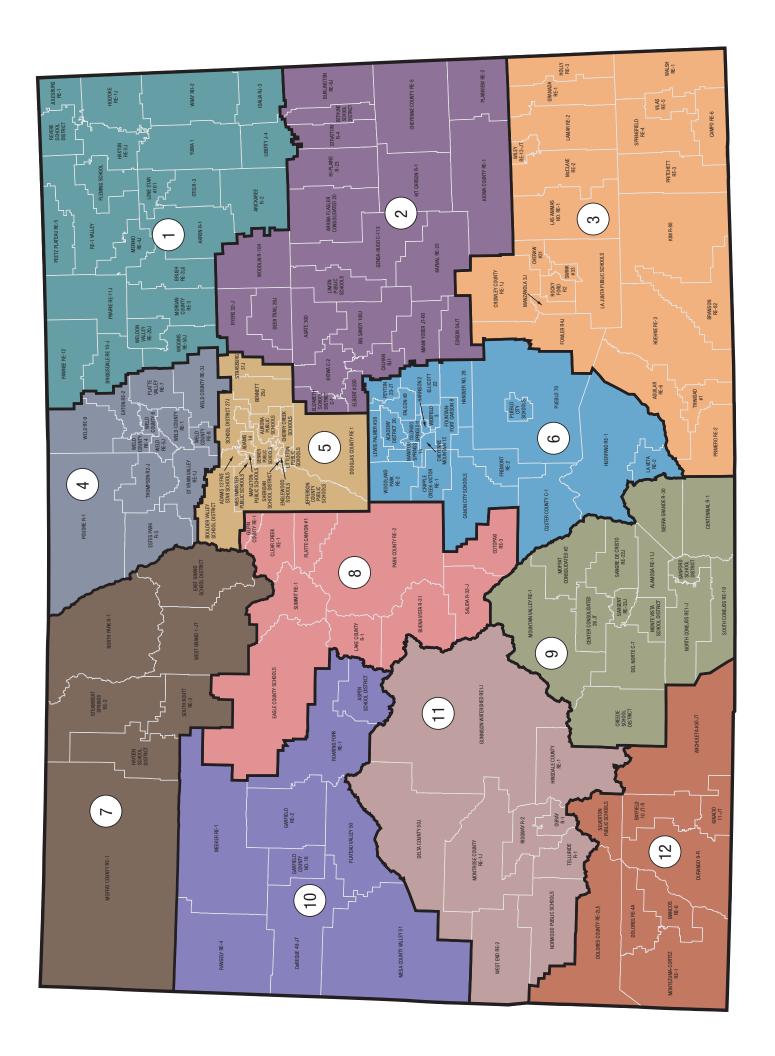

11)	CASB urges eliminating the PARCC tests for school/district accreditation and student assessment
,	and recognizing the authority of local boards to use existing tests that are significantly less costly
	in time and money. Any mandated assessment/accreditation tests should be limited so as not to
	be redundant, overly disruptive to the educational environment or compromising of essential
	instructional time. Assessments for secondary students should be given as end-of-course exams
	rather than by grade level, and no assessments should be mandated for students in the 12th grade.
Rationale: PARCC tests use significant school resources (teacher time, loss of classroom time and fine They take an excessive amount of student time to complete, and results are rendered months later that then counterproductive and effectively pointless; especially considering the rising number of parents "opting out" of the test. Eliminating PARCC tests may even resolve the need for the "opt out" process its lack of usability for teacher evaluations. Rational assessment testing needs to become the focus than ineffective, lengthy and pointless testing.	
	ineffective, lengthy and pointless testing.
	ineffective, lengthy and pointless testing.
	Submitted by Woodlin R-104 School District's Board of Education
thar	Submitted by Woodlin R-104 School District's Board of Education
12) Rati	Submitted by Woodlin R-104 School District's Board of Education  CASB supports the use of the PSAT and SAT tests to satisfy federal and state requirements for
12) Rati	Submitted by Woodlin R-104 School District's Board of Education  CASB supports the use of the PSAT and SAT tests to satisfy federal and state requirements for standardized testing in high school, including at the 9th-grade level.  Sionale: These tests are more meaningful to students than a specific state test and give students a reason to tricipate and perform well. These exams also provide a way to compare Colorado students with students

13)	CASB supports the use of end-of-course assessments for the state-required high school science
	and social studies exams.
Rationale: As with mathematics, high school students take courses relevant to these exams in different years. This proposal would allow students to take the exams in closer proximity to the related course and not potentially years later, or even worse, earlier.	
	Submitted by Poudre School District's Board of Education
14)	CASB urges the General Assembly to eliminate existing concurrent-enrollment policies and
	practices that create obstacles for districts wishing to offer college-level courses to high school
	students. Regional exclusivity should be abandoned at the community-college level to create an
	environment of open competition.
scho to re com from willi	onale: The current system of regions for community colleges has created an exclusivity that hinders public tools. Under current practice, high schools must apply to their appointed regional community college equest higher-education classes for students who have indicated an interest in a particular class. If the munity college denies the request while another college is willing to grant it, a release must be requested and granted by the community college that initially denied the class request before the college that is ing to provide the class can do so. This process is burdensome and, in practice, has limited the course rings available to students.
	Submitted by Kiowa C-2 School District's Board of Education Forwarded with recommendation by the Legislative Resolutions Committee

<b>15</b> )	CASB supports legislation authorizing peace officers who serve as school resource officers or	
	with school district security services to retain their peace officer status.	
offic incl	Rationale: Currently, trained police officers who begin working directly for schools lose their status as a peace officer after two years. At this point, the exceptions for peace/police officers to the application of certain rules, including the rules regarding restraint, do not apply to school resource officers. This legal loophole does not protect students and exposes qualified officers to rules and limitations that can limit their effectiveness.	
	Submitted by the Legislative Resolutions Committee	
16)	The legislature shall direct the Colorado Department of Education to collaborate with district or	
	charter school boards of education and superintendents (as well as their professional associations,	
	CASB and CASE, respectively) to develop systems for counting student enrollment that are more	
	equitable than the current single-day "October count" model.	
adju anni Mar	ionale: Adding a second enrollment count day in February would allow districts to make midterm astments to recognize that students come and go during the school year. Educating children isn't based on an ual decision. Month-to-month or day-to-day decisions are necessary and may warrant different resources. By school districts recognize a significant amount of growth after the October count. Educational funding all did be supported for those new students.	
	Submitted by District 49's Board of Education	

<b>17</b> )	CASB supports full federal funding of the Individuals with Disabilities Education Act (IDEA).
Rationale: The federal law requiring schools to meet the needs of students with disabilities offers current federal funding of approximately 16-17 percent of the actual cost. It is time to increase federal funding to at least the 40 cents of every dollar initially promised by this legislation.	
	Submitted by Poudre School District's Board of Education Forwarded with recommendation by the Legislative Resolutions Committee
18)	CASB urges the U.S. Congress to amend the Safe and Drug-Free Schools and Communities Act
	to include an exception for the administration of non-psychoactive cannabinoids to students on
	school grounds under medical supervision.
psyc facil child to m in th	conale: Students with significant medical needs are migrating to Colorado to pursue treatment with non- choactive cannabinoids for intractable medical conditions such as Dravet's syndrome. Mainstream medical dities like Children's Hospital and Memorial Hospital are allowing administration of cannabinoids to dren in their facilities under compassionate-care policies. In the current environment, caregivers may decide dedicate their children during the school day without the school's knowledge or cooperation because staff the school setting cannot facilitate administration of therapeutic cannabinoids without putting the school's ral funding at risk. This undermines the ability of schools to partner with the parent for the sake of the d.
	Submitted by District 49's Board of Education

19)	CASB urges the adoption of a new Colorado School Finance Act with additional funding that
	addresses the lack of adequacy and equity in our current system.
ecor led t rega fund	conale: The Colorado School Finance Act was approved in 1994. Since that time various legislative and momic factors have changed the Colorado K-12 state funding landscape dramatically. These factors have to funds not being distributed equally among all Colorado school districts. CASB believes every child, ardless of where the child lives in the state, is entitled to a quality education. The only remedy to these ling issues is a comprehensive rewrite of the Colorado School Finance Act to make additional funds liable so that all school districts receive an equitable share of state funding.
	Submitted by the Legislative Resolutions Committee
