7.0 COMMUNICATIONS
7.1 Human Resources Update
Kin Shuman, Director of Human Resources, communicated to the Board that the Employee Insurance Committee will be meeting soon to review and discuss the district’s current health, dental, and vision plans. They will be working with our current broker and looking for opportunities to improve the plans, making them better for our employees and controlling the costs associated with the plans. Kin Shuman will be starting the recruitment process for next school year. He and school leaders plan to attend the spring job fairs at UNC Greeley and CSU Ft. Collins both in April. With the leadership stability and quality of leadership at our schools, Kin indicated he is optimistic and anticipates lower teacher turnover this year.

7.2 Technology Update
Marty Silva, Director of Technology, communicated that the technology team is working on improving security cameras at several schools which include replacing old ones with newer cameras that are of higher quality and with more capabilities. Additional chrome books have been added to the schools both in the classroom and to chrome book carts. Specifically, EMS will be receiving 50 chrome books with much of the funding coming from Elizabeth Education Foundation grants, PTSO mini grants, a major donation from Ethos Roofing, and a donation from two EMS families. District Administration has expressed their on-going concern about the volume of data, the type of data, and the frequency of reporting that is required by the Colorado Department of Education (CDE). Marty is creating a process for our staff to document their data reporting and the amount of time being spent on this reporting. District Administration and the Board of Education will be able to analyze this information and share the analysis with state legislative representatives.

7.3 Chief Financial Officer Report
Chief Financial Officer Ron Patera provided a financial update to the board. Mr. Patera mentioned an email he received from CDE’s associate commissioner in charge of school finance stating that the statewide pupil counts are below original estimates and assessed property valuations are higher than projected. It also stated that legislature will consult with Legislative Council the Joint Budget Committee and Office of State Planning to determine a course of action prior to adopting a supplemental appropriation for the current year. Mr. Patera will bring a revised budget proposal for FY 15-16 to the board for approval at the next meeting. The revision will include updated revenue and expense figures, and will be a conservative estimate using actual data for the first half of the year.
7.4 Superintendent Report
Superintendent Douglas Bissonette reiterated that safety for our students and staff is a top priority for our district. He commended his staff for the measures they take every day to ensure safety at our schools. Last week, approximately 30 employees attended the Incident Command System training conducted by Elizabeth Fire Marshal Kara Gerczynski and Fire Chief TJ Steck and the Standard Response Protocol training conducted by FHS Principal/Safe Schools Chair Rob McMullen. These trainings are mandatory for all employees. Our schools are required to conduct fire drills, lockdown drills, shelter in place and evacuation drills throughout the school year. For the last year there has been a focus to improve reunification after an incident and threat assessment to prevent incidents. Ten district and school leaders recently attended threat assessment training provided by a national leader. From that training, a committee was formed to improve our current processes and to build a system based on the most recent research and best practice.

Mr. Bissonette reported that The Department of Education confirmed approval for the state to administer the ACT exam to high school juniors this year. The agreement will not change the selection committee’s decision to award the College Board a five-year contract to administer the SAT to Colorado’s 11th grade students, beginning in 2017. Under the agreement, this year’s 10th graders will take the PSAT in preparation for Colorado’s full transition to the SAT in the spring of 2017.

The Student Advisory Council convened prior to Thanksgiving. The Council includes student representatives from each of the schools. These student representatives will be meeting with the principals in their schools with the goal to empower student voice.

Douglas Bissonette also mentioned to the board that another Colorado Superintendent Letter regarding Advocacy for Adequate School Funding was sent to the State Legislature. Mr. Bissonette, along with 9 other superintendents including Douglas County, St. Vrain, Burlington, and Falcon, did not sign this letter. The letter requested reclassification of the Hospital Provider Fee to an enterprise fund as a short-term measure to provide additional funding for state. Mr. Bissonette felt that this request, along with others mentioned in the letter, didn’t address the most urgent need of the district. The most important funding issue with legislature should be focused on the level of salaries for our teachers in order to attract, retain and support talented educators.

After receiving feedback from staff and parents, a second draft of the district calendar for the 2016-17 school year was reviewed. The draft calendar remains very similar to the 2015-16 calendar with the exception of one additional contract day for teachers prior to the start of school, and adds days for new teachers. By starting earlier, new and returning teachers will have more time to get ready for students. The calendar for next school year is expected to be approved by the board at the January 25 Board Meeting.

7.5 Board Update
Director Chris Richardson attended the Joint Budget Committee hearing on K-12 education. There was a great deal of discussion on the negative factor. The legislative staff expert on K-12 education told the budget committee that funding public education is driving the state budget out of balance. The Second Regular Session of the Seventieth General Assembly convened on January 13 and is scheduled to adjourn on May 11. A recent article in Chalkbeat stated, “Colorado’s 100 lawmakers return to the Capital this week facing a budgetary squeeze and some important unfinished education business.” The article outlines the Big Issues:

- Budget and school finance
- Data privacy
- Testing, ratings and evaluation
- Construction – Building Excellent Schools Today
- School safety and district liability
- Data reporting
- School Readiness
- Graduation Guidelines
Members of the Board of Education will be participating in CASB Days at the Capital. These events provide school board members a chance to experience the legislative process firsthand and to help strengthen the voice of school boards. Members of the Board of Education will also be participating in the CASB winter legislative session in February.

7.6 Graduation Guidelines
Principals Bret McClendon (EHS) and Rob McMullen (FHS) continue to work on new high school graduation requirements. Mr. McClendon indicated that the EHS leadership team reviewed the current requirements, what other high schools require, and CDE’s requirements. Currently EHS students need 26 credits to graduate and the leadership team felt they did not need to change this. They are looking at requirements such as fine arts, foreign language, technology, and community service. Mr. McClendon indicated this is still a work in process and he would like to provide another progress update at the next board meeting.
