Discussion focused on the School Performance Framework (SPF). Overall achievement and growth scores are good and meet the state requirements. Students who could qualify for Free and Reduced Lunch are lower and in the approaching area. Those will be the focus areas for the school's Unified Improvement Plan (UIP). Mrs. Zander discussed participation rates and opt-out forms that must be completed to meet the state requirement of a 95% participation rate on state tests. Strategies to address the F/R students were discussed, with McClendon mentioning a program he looked at to boost SAT and PSAT scores. The cost will certainly be a factor.

Upcoming topics include the calendar committee for 26/27 and a district performance review of CMAS data.
